Game: Counter-Strike: Source Map type:PACKSize:111.61 MB Slots:not specified Author:not specified Date uploaded:09 July 2007, 00:00 Uploader:iVoka Download: Mega map pack Downloaded 155035 time(s), traffic: 16.50 TB Report problems The Maps.cs-bg.info website is a property of the bulgarian Counter-Strike fansite CS-bg.info, focused entirely on providing users with wide selection of maps to play on. Have you ever played Jeppathon in the old CS version? For some strange reason, the author remembers this map with reverence. It wasn't pretty. Unbalanced. Too, too open! But still fun, at least for casual games with friends. Unlike the original version from CS, you can not drive on cars. Some notes: The map was created 100% from old memory, and most likely the author missed a lot of details. He also added more barrels, compared to the original Source, and more reminiscent of the CS 1.6 version, with the exception of textures and polygons. Tested on v34. Page 3 This map is ported from CSProMod and almost a full copy of the original Dust2 from CS 1.6, the differences are only textures and polygons from Source. Therefore, there are no barrels, cars, bottles, etc. The author is unknown Page 4 Today you receive a cs hijack card from CS-GO for CSS! This location was based on the legendary cs_747 map from Counter-Strike 1.6, but at the same time it contains many innovations and improvements, as well as an updated layout. In the story, a team of terrorists captured a Charter plane with foreign passengers, respectively, the special forces must release them. Page 5 Ads keep us online. Without them, we wouldn't exist.
